

Arshad Bava M

Malappuram, Kerala, India | (+91) 7356376969 | arshadbavam@gmail.com
arshadbava.online | github.com/ArshadBava | linkedin.com/in/arshadbavam

PROFESSIONAL SUMMARY

MCA graduate and Full Stack Web Developer with experience in building scalable web applications using Python, Django, React, and SQL. Skilled in designing RESTful APIs, implementing CI/CD pipelines, and integrating AI/ML solutions including RAG systems. Proficient in Agile SDLC practices with hands-on experience deploying production-grade software on AWS cloud infrastructure.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C/C++, R
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend & API: Django, Django REST Framework (DRF), FastAPI
Database: PostgreSQL, MySQL
Cloud & DevOps: AWS (EC2, S3), Docker, Git, GitHub, Linux, CI/CD Pipelines
AI & Data: Google Gemini API, RAG Systems, NumPy, Pandas, Scikit-learn
Core Competencies: OOP, Data Structures & Algorithms, Unit Testing (Pytest), Agile SDLC, RESTful API Design, Version Control

PROFESSIONAL EXPERIENCE

Cynosure – Enter The Technoverse
Software Developer Intern

Kochi, Kerala
Dec 2025 – Apr 2026

- Developed, tested, and deployed full-stack web application features using Python, Django, and React.js, enhancing application responsiveness by 20% (Lighthouse scores) and achieving 99.9% uptime via AWS EC2/S3 infrastructure managed through CI/CD pipelines; accelerated PostgreSQL query performance by 15% through schema refactoring and strategic indexing.
- Designed and integrated secure RESTful APIs for enterprise dashboard modules; collaborated with cross-functional teams following Agile/Scrum methodologies including sprint planning and daily stand-ups; conducted code reviews and maintained coding standards across the full-stack codebase.

TECHNICAL PROJECTS

Invisible Watermarking API | FastAPI, Python, Pytest, DWT/DCT/DFT | GitHub
Full Stack Developer

Nov 2025 – Apr 2026

- Developed a production-ready REST API with 12 endpoints and 100% test pass rate by authoring 116 automated unit tests using Pytest; engineered a custom Block-DFT Log-Domain QIM algorithm that reduced Bit Error Rate from 50% to 0% while maintaining imperceptible image quality (PSNR > 38 dB).
- Implemented a browser-based frontend for real-time image processing and watermark visualization; applied signal processing best practices and optimized algorithmic performance through profiling and refactoring.

AskPU – Multilingual AI Chatbot | React, Django, RAG, Google Gemini API | GitHub
Full Stack Developer

Jul 2025 – Nov 2025

- Architected a hybrid AI system integrating Google Gemini LLM with a custom Retrieval-Augmented Generation (RAG) pipeline, improving response accuracy by 40% (user feedback surveys); integrated Speech-to-Text and Text-to-Speech capabilities into the React.js frontend.
- Designed scalable RESTful API endpoints with JWT authentication using Django REST Framework and PostgreSQL, supporting concurrent user sessions; implemented responsive front-end interfaces and integrated database solutions for secure data handling.

CarePing – Digital Healthcare Web Platform | React, Django, PostgreSQL
Full Stack Developer

Jan 2026 – Feb 2026

- Developed and deployed a modular healthcare booking system using React.js and Django, streamlining patient onboarding and appointment scheduling workflows as measured by reduced click-depth in user flow analysis.
- Built and integrated secure RESTful APIs facilitating real-time communication between frontend components and the PostgreSQL backend; maintained and enhanced application features following best practices for authentication and data security.

EDUCATION

Pondicherry University
Master of Computer Applications (MCA) – CGPA: 7.5
University of Calicut
Bachelor of Science in Mathematics – CGPA: 5.8

Puducherry, India
2024 – 2026
Kerala, India
2021 – 2024

CERTIFICATIONS

Foundation of R Software

IIT Kanpur – NPTEL

Oct 2025

The Joy of Computing Using Python

IIT Madras – NPTEL

Oct 2024

Cloud Computing

IIT Kharagpur – NPTEL

Nov 2025
